

Construction Lead – ElectroMobility

Company: ChargerCrew Canada Inc.

Location: On Site, Woodstock, Ontario, Canada

Type: Full-Time

About ChargerCrew Canada Inc.

At ChargerCrew Canada Inc., we are a leading electric vehicle charging company specializing in the installation, maintenance, and management of ChargePoint equipment since 2016. Our mission is to accelerate the adoption of electric vehicles by providing reliable, efficient, and sustainable charging solutions.

Position Overview

We are looking for an experienced Construction Lead – ElectroMobility with a strong electrical background to oversee EV charger and solar project installations. This role requires hands-on leadership, technical expertise, and a strong commitment to quality and safety.

Key Responsibilities:

- Perform site evaluations, assess project requirements, and prepare accurate electrical and civil construction estimates.
- Coordinate and schedule installation projects, ensuring timely completion.
- Oversee the safe operation and handling of construction equipment such as excavators, telehandlers, forklifts, and knuckle boom hydraulic cranes.
- Troubleshoot and diagnose issues during electrical and mechanical installations.
- Provide technical guidance and support to installation teams, resolving technical issues or challenges.
- Manage the movement of materials, tools, and personnel to and from job sites to ensure smooth project execution.
- Collaborate with engineering and design teams to ensure installations meet required specifications and standards.
- Maintain accurate documentation of installation activities, permits, inspections, and project reports.
- Develop and maintain relationships with suppliers, subcontractors, and regulatory agencies.
- Stay updated on industry trends, best practices, and technologies related to electrical codes, EV chargers, and solar installations.
- Foster and maintain a safety-first culture within the construction team.

Qualifications:

- Previous experience in managing crews, preferably in the electrical or renewable energy industry.
- Experience with transportation flatbed operation and secure loading techniques.
- Class A license (or willingness to obtain) with experience in crane lifting operations is an asset.
- Willingness to undergo training to become ChargePoint certified.
- Strong knowledge of electrical codes, regulations, and standards.
- Experience with civil work and solar projects is an asset.
- Excellent leadership, communication, and problem-solving skills.

What We Offer:

- Competitive salary and a comprehensive benefits package, including health insurance and paid sick leave.
- Flexible working hours in a dynamic and supportive environment.
- Opportunities for professional growth and a chance to make a tangible impact on sustainability.

How to Apply:

To apply, please send your resume, cover letter, and any relevant certifications to careers@chargercrew.ca. In your cover letter, highlight your experience and how it aligns with this role.

Join ChargerCrew Canada and be part of shaping a cleaner, more sustainable future. We look forward to your application.
